- Jan 2022 - Jun 2022 🇹🇷 Turkey
 User Experience Designer
Koçtaş
- Nov 2021 - Oct 2022 🇹🇷 Turkey
 Front-End Developer
Qraft Clothing

At Diabolical Studios, a start-up freelance design studio, I had the opportunity to work on a variety of projects, including the creation and development of the studio's website. This project allowed me to showcase my skills in web design and development, as I was responsible for the full creation of the site, from initial concept to launch.

At Koçtaş, I had the opportunity to work as a UI & UX Artist, contributing to the design of various webpages on the koctas.com.tr site. Through this experience, I learned about the key considerations for creating user-centered interfaces in an e-commerce context and gained valuable experience in working with cross-functional teams.

At Qraft Clothing, I had the opportunity to work as a UI Designer and develop the company's website from the ground up. This project allowed me to showcase my skills in creating a visually appealing and user-friendly website that effectively showcased the brand and its products.
